

## Integrated Facility Management *Sustainability Initiatives*

Arora Facilities Solutions designs and implements eco-friendly solutions, such as energy-efficient systems, waste reduction and repurposing programs, and sustainable sourcing. Let Arora help your business meet environmental goals and regulatory requirements by:

- + **Implementing smart building technologies** to reduce energy consumption and carbon footprint.
- + **Establishing programs to minimize waste** and promote circular economy principles.
- + **Utilizing efficient plumbing systems** and monitoring usage to reduce water waste.
- + **Sourcing eco-friendly materials** and working with vendors committed to sustainability.
- + **Achieving certifications such as LEED, WELL or BREEAM** to enhance environmental performance.
- + **Supporting local initiatives, volunteering, and fostering partnerships** that benefit society.
- + **Creating healthy work environments** with improved air quality, ergonomic designs, and wellness programs.
- + **Transitioning to renewable energy sources** and optimizing transportation logistics.
- + **Ensuring adherence to sustainability regulations** and ethical business practices.
- + **Providing stakeholders with clear insights** into sustainability efforts and CSR impact.
